New competition event – Shadow Dance

So what's the scoop? This is a new event for US Figure Skating being tried out at several competitions this year. It consists of two non-partnered dancers (does not have to be a boy and a girl) both skating the ladies steps of a solo dance pattern at the same time. The two dancers are close enough together (side by side or one in front of the other) to be able to demonstrate unison, but not so close as to get in each other's way.
